WEBI MULETA

Full Stack Developer

webimuleta01@gmail.com · webi-muleta.vercel.app · github.com/webi01 · www.linkedin.com/in/webi · t.me/dirac02 · leetcode.com/Dirac1235

SUMMARY

Full stack developer building fast, accessible products from the API to the UI — currently at Synheart. Computer Science & Engineering graduate with work across human-state platforms, B2B marketplaces, AI tooling, and desktop apps.

EXPERIENCE

Synheart — Full Stack Developer — 2026 — Present · Remote

- Built platform.synheart.ai, the organization dashboard where teams manage their org, members, and access.
- Work on Life, the companion desktop app that captures user state and hosts real-time chat.

Tech for Africa — Freelance Full Stack Developer — 2025 · Remote

- Built and maintained responsive web interfaces with Next.js and Tailwind CSS for African-focused tech initiatives.
- Focused on component reusability, performance, and seamless API integration.

Ewnet Communication — Full Stack Developer Intern — 2023 · On-site

- Built full-stack web apps with Next.js, Node.js, Express, and MongoDB — responsive UIs, REST APIs, and database work.

SELECTED PROJECTS

Synheart at Synheart synheart.ai

A privacy-first human-state platform that turns biosignals into structured signals like stress, focus, and cognitive load. I build product surfaces across the Synheart product family.

Next.js · TypeScript · Tailwind CSS

Synheart Platform at Synheart platform.synheart.ai

The organization dashboard where teams manage their org, members, and access across Synheart.

Next.js · TypeScript · Tailwind CSS

Synapse at Synheart synapse.work synapse.synheart.ai

Part of the Synheart product family — I worked on both its public site and its web app.

Next.js · TypeScript · Tailwind CSS

Intent intentt.vercel.app

A desktop AI agent platform that puts your computer on autopilot. Professionals build tailored automation systems for repetitive work — just type what you want done and Intent handles the rest.

Next.js · TypeScript · Desktop · Automation

Revcom revecom.vercel.app

Ethiopia's B2B procurement marketplace connecting buyers with 200+ verified suppliers — live procurement requests, real-time quotes, bulk catalogs, and escrow-protected payments.

Next.js · Node.js · MongoDB · REST API

SymDoc sym-doc.vercel.app

Generate, refine, and publish high-quality system prompts for AI agents. Create with AI assistance, iterate in real time, and share your best work.

Next.js · TypeScript · MongoDB

EDUCATION

BSc Computer Science & Engineering — Adama Science & Technology University — Very High Distinction — 2022 — 2026

Competitive Programming & Algorithms — A2SV — Africa to Silicon Valley — 2024

Full Stack Software Engineering — ALX Africa — 2021 — 2022

SKILLS

Frontend	React · Next.js · TypeScript · Tailwind CSS · Framer Motion · Flutter · Dart · HTML & CSS
Backend	Node.js · Express · Python · PostgreSQL · MongoDB · REST APIs · GraphQL · JWT
Tools	Git · Docker · Linux · Figma · CI/CD · Agile · UI/UX Design · Vercel
